Just thinking of you mom life is so difficult and the struggles never end now I know how strong you actually were putting up with all my shit and the only thing I would change is our time together we love you miss you until we meet again or I invent the rewind button but Inventions need money and a lifetime to build you gave me the best you could and the ability to see past money which most make their life about it I can't take it with me but I can take all our memories the kind people do anything to have I couldn't ask for a better mom than you

She was like another mom to our friend group it feels strange calling her Julia because we always just called her mom. She was so loving and fun taking us on adventures and howling at the moon on camping trips. We're gonna miss her so much.

We used to call Julie our aunt because her and my mom were close friends growing up. We used to watch wrestling with Waylon and even used to play wrestling at their home. This one time we double choke slammed Waylon into his bed and broke the frame. She came in soooo pissed! Even though it was my brother and I who slammed him , she was only mad at him because it was his idea. Those where some good childhood memories with the family.
