In Memoriam Kent Maynard 7/15/70 – 2/5/24

On the 5th of February, 2024 our beloved Kent died. He was killed as a result of a vehicular/bicycle collision and is survived by our Mom, my Sister and myself- each of us struggling to overcome his loss.

Kent was loved by many, and will be sorely missed. His life has left an indelible imprint on all of us, and we will miss his warm personality forever. Many will remember that Kent was always so happy to see you, with that big, handsome smile- despite whatever pain or hardships he may have been wrestling with himself. In the last several years of his life he had significant challenges- yet always approached them with resolve and dignity. We want to say thanks to everyone who has graciously helped him throughout his journey.

His hands were strong and often rough from his daily battle, yet healing in their touch- and warm and sincere in every handshake. Charming and engaging, he had the gift of healing the most troublesome of aches. An early gift of Grey's Anatomy sparked an interest that was to guide him in becoming a true body mechanic. As such, he excelled in the study and knowledge of nerves and human anatomy and a healing art that rewarded so many. I remain very proud of him. A musician of the cello, guitar and bass, he loved and appreciated a broad spectrum of music. We'll all miss his humorous wit! His example of indefatigable, determined optimism and the ability to keep his beautiful chin up will always inspire us. He deserves the utmost respect for this. Perseverance was a core value for him.

Thanks to everyone for your loving, supportive words, calls and messages to his surviving family members. They will be, as Kent will be, always remembered.

Goodbye brother. We always have, and always will love you.

“A whole Gothic world had come to grief... there was now no armour glittering through the forest glades,
no embroidered feet on the green sward; the cream and dappled unicorns had fled...”
~ Evelyn Waugh, A Handful of Dust, 1934

I've been trying to find him and had no contact. He cured my sciatica and lived with me in Colorado a few months before his death. I wanted him to stay, but I was going through a divorce and losing my house. He never wanted to bother anyone, but he was anything but that for me. He was a REAL healer, he could do things no being knew was possible with the nervous system. I watched him work magic day in and out on people in my living room. He said he was being followed and was in a major lawsuit with the state of Utah over being surveilled. He had multiple NDE's because of the previous accidents, and to see the cause of death again is really really hard to swallow. I wish his phone wouldn't have changed so much, I had been trying to find his # for quite a while, and only after seeing a photo of him again recently, did I find it again. He was the only one who ever saw me for who I really am. He had a way with energy, and his hands were nothing short of magical extensions of the Creator itself. We'll meet again soon brother. I will never forget you. You gave me my life back, and you sacrificed your own for everyone around you. Those sand castles in heaven are still there my friend. I will always remember the night you sang with your beautiful voice in resonance with our singing bowls. You are truly magnificent Kent. Heaven sings your song with you. Thank you!-Shelby

Allie K lit a candle in honor of Kent.

Although I never knew Kent personally, I have heard so many stories from the Love of my life, for whom Kent forever changed his life; not only through his healing hands by curing his sciatic pain, but through his presence, charm, intelligence, and sharing the magic of connected presence and awareness. It is because of these stories and reminiscing constantly about Kent, that we have found our way here. What a loss of such a beautiful Soul and gift to this planet! May you all be reminded that he is always with you, and watches over you. So celebrate, and live life fully the way he would have wanted you to! Much Love to you all! Allie- GJ, Colorado

Kent was always here for my family and me. This, of course, would include my pets. He always showed up - and when he did he was keenly present. I miss him, terribly. My heart goes out to his mom, brother and sister. You did great work here, Kentles. We will miss you forevermore. If anyone wants a pair of readers, I have several pairs here that he left behind.

"It will be as great as I make it, or let it be.

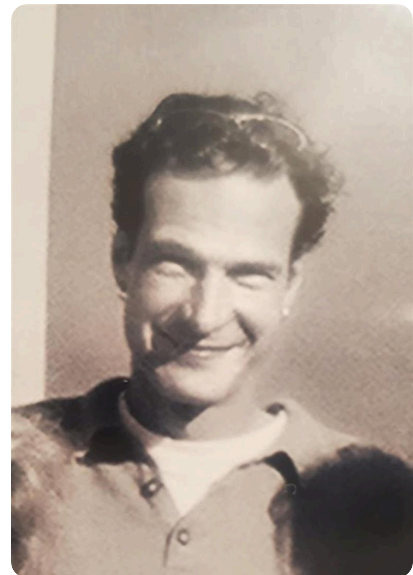

It's going to be grand. You'll see my castle made of special Spanish sand! Stain glass windows on my car, but mostly a smile. Because the car doesn't run, and the castle was made of quicksand.

But still I walk away with a smile.

Because I may have failed trying, but better to have failed *and* tried, than to have *never* tried and just dreamed".
