“ I loved Ann Mariah..I new her from the daycare I work at that her daughter's attend.she was always so fun to talk to and always positive. My favorite memory of her is when she text me and said her daughter had wanted to invite me to the park and would I like to go and bring my girls. I happily accepted. It was so fun to get to know her on a more personal level. It was fun seeing her and her girls playing on the slides merry go round. We were like 2 big kids playing at the park. I remember Ann telling me how happy her and Mariah were that I came. We had plans to go to the park again with the girls. R.I.P Ann Maria im glad I got to know you!
