

## Chase Randal Ostler

November 12, 1984 - June 11, 2019

Chase Randal Ostler, our son, father, brother, grandson, and best friend, returned home to his Father in Heaven on June 11, 2019, succumbing to injuries sustained in a motorcycle accident, and surrounded by his loving family. Chase left this life much as he had lived it—having a ton of fun.

Born on November 12, 1984 to Randy and Kelli Ostler, Chase led a life full of contagious energy, unconquerable optimism, and a real talent for “debating.” Challenges in his young life could never fully get in his way, and he tackled the many trials that came his way with courage and a healthy sense of humor.

Chase will be remembered by all who knew him for his quick laugh and his generous spirit, attested to by those occasions upon which he literally gave the shirt off his back to someone in need. Chase’s belief in the power of service was strong. His experiences with adversity at a young age turned his heart outward; as a result, he loved people with unwavering loyalty and was constantly thinking of those who had less than he did.

An example of faith in the face of challenges, Chase never gave up in trying to improve himself and in growing in his relationship with his Savior, Jesus Christ. In the final years of his life he graduated from UVU with a degree in psychology and began working as a counselor and mentor to teenagers who experience the same kinds of challenges he had as a youth. He also managed to get the girl of his dreams who filled his life with so much happiness.

In addition to his parents, grandparents, three sisters, brothers-in-law, nieces and nephews, and a crowd of loving extended family, Chase is survived by his two best friends and closest companions: his twelve-year old son Kyler and his cherished Camille, with whom he loved to visit the temple in the last few years. Our hearts are tender; nothing can replace the Chase-shaped hole that has opened in our lives. But we know that he is needed on the other side, where he must already be talking everyone’s ear off and making sure his robes look just right before going to work. And we add, as Chase would say, “We

guarantee it!”

Survived by: Randy and Kelli Ostler, parents; Eldon and Marsha Forman, grandparents; Ashlee and Jon Harris, sister; Kelsee and Zach Bradshaw, sister; Shelby and Derek Myler, sister; Kyler Ostler, son; Camille Gilbert, love of his life.

“ Randy and Kelli - I don't know if you remember me or not, but I saw Chase's obituary in the paper and memories of our old ward in West Jordan came flooding back. I remember Chase as a very busy, determined little boy who loved his mama very much. Our hearts go out to you and your family, and we pray that you will find peace in this time of grief.

“ Chase-a-roni... my good friend, I drove past Raintree apartments today and couldn't help but laugh and then get a little chocked up with so many memories of this incredible person. I first met chase when he moved to Riverton at maybe 11 or 12? I remember thinking that he was so lucky because he had a "Simpsons" pinball machine at his house, it was so fun to have sleepovers there! A few years later I remember helping install a lift on the Bronco with huge Super Swampers!! 39's maybe? When he laid down his first street bike I fixed the gas tank and did a custom paint job with flames. My family and the Ostlers went to Lake Powell every year for over 20 something years, soooo many great memories there!!! Finding a huge tree up a canyon and towing it back to the house boat on the wave runner, wake boarding, exploring, sinking a boat, watching Chase accidentally drop his wedding ring in the lake, I could go on and on. Chase was always FULL of energy, when everyone else was tired from a long day at the lake he would be off on the Sea Doos or asking me to take him out on the Flyboard, he never stopped! College days were full of good times!! I helped design/draw his first tattoo of his initials, I was also there when he got a certain piercing and will never forget the sound he made when the needle went through! The polar bear plunge, roller blading, shooting bottle rockets at people in the hot tub from our balcony, again, the list goes on and on! It's awful that he left this earth so early in life but I truly believe that he "LIVED" more in his short life than many people who live to be 90 ever will. Love you man!

“ Jumping off the cliffs at Flaming Gorge at 8 years old on our Priest activity. The cliffs were around 40 feet. Just wanted to be one of the boys.

“ My favorite memory of Chase is an occasion when Chase made arrangements for the Ostler family to get together and play golf. Through connections, effort, and some monetary output on his part, he arranged for his aunts, uncles, some cousins to meet at a course and play one Saturday. After the event his great enthusiasm, excitement, generosity, and enjoyment (that of his own and that of all who participated) was clearly evident. How very generous and amazing, to me, was this gift of his time, money, and talents. Still it makes me smile; and I hope the reminder of this event might help you smile, too. With love, Helen

“ I met chase in 2012/2013 at Therapia treatment centers. In 2017 I reunited with chase. I was homeless and kicked out of my moms in utah.. I'm originally from illinois.. chase took me into his home, employeed me and got me back on my feet again. He helped me when nobody else would. Chase has a special place in my heart forever. Condolences to the family and close friends of chase. May he rest in peace. So grateful I had the opportunity to meet him.
