“ Aunt Lila, I am so sad and sorry to hear of uncle Joel passing. I wish I could've been there in person to offer my support and condolences. in times like this we reflect on how very short life truly is and just how quickly our loved ones can be gone without the chance to say I love you one more time. I recall a time you reached out to me when my daughter passed away. You will never know how much of a difference that made in my life and I want you to know how grateful I am for that simple gesture. I know you have plenty of family and support surrounding you but if there is anything I can ever do to help you or just to listen. Please know I'm here in any way possible. In the end it is not about the material things we own or the status that we portray its the memories of our lifetime that stay with us along the way. It's the family that unconditionally love and support us and I hope one day we can make some more of those memories to hold dear in our hearts. I love and miss you all so much. I hope your doing well. Love always your niece Teresa

“ As a young apprentice man work for a contractor, I first remember meeting Joel on a construction site, I helped him install an engine in Caterpillar D9G. Didn't take long to figure out we had something in common, the love for yellow iron and the good old dirt bike.

He always treated me like a son. I liked to talk to him when ever I could.

My condolences to the family and Godspeed to you Joel, you've a one of a kind.

“ I appreciated Joel's life, and have good memories of our working times together at wheeler machinery. We were field mechanics together, and supervisors together. Joel was an outstanding mechanic and person. I haven't worked with Joel for about 14 years, but have some good memories of him and his family. I will miss him.

Till we meet again in Heaven.
