“ Maryann, please know how much your Retrenchment sisters grieve with you. Even I in Ottawa, who would so love to hold you in person. It seems so unreal, to be preceded in death by one's child — I hope your heart will soon heal, that the happy memories will soon wash out the sadness of this and other times. Love, Maureen / Maura

“ Oh Maren, my mind just won't accept that you're not here with us anymore. So many memories, so many good times and also hard times. You were always there for support, and encouragement, always seeing the positive through all the negative. You affected so many people with your spunky, witty soul. You left the physical world too soon, but your vibration will always be present. I would say rest in peace, but I doubt your vibrant soul is resting. You are truly missed and will never be forgotten. Much love, always!
