“ We are so sorry to hear of Michelle's passing. She has been in our heart and prayers since we heard of her hospitalization. We appreciate all that she has done for our daughter, Katie. She has been a bright light on a cloudy day in life's troubles. She will be missed beyond what she could ever realize. But isn't that the nature of a person with a truly giving heart.

“ Have so many great memories of our mom. Just one of many was the time she called me up and ask if I would like to go with her to her step mom shop to do some painting. I told her I would love to but don't know how to paint she said things are cut out and you can use Stancils to draw on the cut outs. So we end up going and had such a blast just sitting and painting, laughing. To this day mother in law has the napkin holder I made. There was other time we had sleep over at her house and stayed in her uncle Frank Trailer there was four of us we all made a deal who very fell a sleep we would put their bra in the freezer will we did pretty good stay up but are friend Jackie fell sleep around two in the morning so we got her bra and put it in the freezer and when she woke up we told her she was the first one to fall a sleep and her bra is in the freezer. This are just some of the memories I have of our mom. So sorry that I can't be there tomorrow but know you guys are in my thoughts and prayers. Just know she means the world to me and always. RIP my dear friend.
